

**BOARD POLICY SERIES NUMBER: 1030**

**TITLE: TIMELY WARNINGS--ALERTING THE CAMPUS TO THREATS TO SAFETY**

Federal law (The Clery Act) requires that the college provide timely warnings to the campus community whenever it becomes aware of a serious or continuing threat to the health or safety of students or employees. Most often the safety issues addressed by this policy will be related to incidents on, or in close proximity to, college owned or controlled property, but the college also will provide timely warning for serious safety issues of any type that may affect students or employees traveling to or from college owned or controlled property.
