

ADMINISTRATIVE RULE NO: 5035-01
RELATED TO POLICY SERIES NO: 5035

TITLE: STUDENT INSURANCE COVERAGE

Occasionally students incur injuries or loss of property while participating in Linn-Benton Community College classes or activities. Tuition and fees paid to LBCC do not include medical/dental/disability or theft insurance. It is the individual student's responsibility to acquire the necessary insurance dependent upon the needs.

In are a few classes arrangements have been made in advance for Workers' Compensation coverage. This is not automatic and requires prior arrangement with the Business Office. LBCC also furnishes a limited secondary medical plan for athletes in varsity programs. Both Workers' Compensation and athletic insurance programs are very specific in applications covering relatively few students.

LBCC's liability insurance will provide coverage to the college only when it is legally determined that the college staff was negligent or performed a wrongful act. Student medical insurance is available by an outside carrier each term. All students are encouraged to have some type of medical insurance. International students on an LBCC – issued I-20 are required to maintain health insurance each term for which they are registered.
