SECTION 200 - PUBLIC CONTRACT SPECIAL PROCUREMENTS

General Contract Special Procurements

Advertisement Contracts

CCR.202

The College may purchase advertising, which does not include contracting with advertising agencies, regardless of dollar amount, without competitive bidding. Where it is determined to be cost effective, the College may publish its public notices electronically, via the college's or other public entity's electronic procurement system or world wide web site instead of, or in addition to, a newspaper of general circulation.

Bid Security and Bond Requirements, Waiver of

CCR.204

Pursuant to ORS 279C.390, the College may, at its discretion, exempt certain contracts or classes of contracts from all or a portion of the requirement for bid security and from all or a portion of the requirement that good and sufficient bonds be furnished to ensure performance of the contract and payment of obligations incurred in the performance.

The College may waive bid security requirements and/or performance/payment bond requirements pursuant to ORS 279C.390 and this rule under the following conditions:

- (1) If the contract is for a public improvement or a public work and the amount of the contract does not exceed \$75,000 or another threshold as indicated by rule amendment in Section 300, and the contractor has filed a public works bond with the State of Oregon Construction Contractors Board;
- (2) If the contract is not for a public improvement;
- (3) Where bidders are drawn exclusively from a list of certified Emerging Small Businesses maintained by the Advocate for Minority, Women and Emerging Small Business, and the College has been provided funds by the legislature for the purpose of assisting Emerging Small Businesses;
- (4) In cases of emergency, or when the interest or property of the College or the public agency or agencies for whose benefit the contract was awarded probably would suffer material injury by delay or other cause and a declaration of such emergency has been made in accordance with rules adopted under ORS 279A.065.

The College shall not use Bid or Proposal security to discourage competition. The Offeror shall forfeit Bid or Proposal security after award of the contract if the Offeror fails to execute the contract and promptly return it with any required Performance Bond and Payment Bond.

Donated Materials and/or Services

CCR.205

The College may authorize a Person to perform services and/or provide materials regardless of dollar amount, if:

- (1) The Person has agreed to donate all, or a portion of, the materials and/or services necessary to perform the work; and
- (2) The Person enters into a license or agreement with the College whereby the Person agrees to comply with the public contract requirements applicable to the particular project and any requirements that the College deems necessary or beneficial in order to protect the College.

Emergency Contracts (Including Oil or Hazardous Material Removal)

CCR.206

- (1) Pursuant to the requirements of this rule, the College may, at its discretion, enter into a public contract without competitive solicitation if an emergency exists. Emergency means circumstances that could not have been reasonably foreseen which create a substantial risk of loss, damage, interruption of services or threat to public health, welfare, or safety, and require prompt execution of a contract to remedy the condition (ORS 279A.010(1)(f)).
- (2) Regardless of the dollar value of the contract, when entering into an emergency contract the College shall:
 - (a) Make a written declaration of emergency, including findings describing the emergency circumstances that require the prompt performance of the contract, stating the anticipated harm from failure to establish the contract on an expedited basis; and
 - (b) Encourage competition to the extent reasonable under the circumstances; and
 - (c) Record the measures taken under subsection (b) of this section to encourage competition, the amounts of the bids, quotes or proposals obtained, and the reason for selecting the contractor.
- (3) Pursuant to ORS 279B.080, if an emergency exists as defined in subsection (1) of this rule, the Board of Education, its President, or another officer authorized by the College shall declare the existence of the emergency as required by subsection (2) of this rule, which shall authorize the College to enter into an emergency contract.
- (4) The written declaration of an Emergency and resulting contract are solely entered into at the discretion of the College's President or authorized officer.
- (5) If the total award exceeds the threshold for formal public bidding, the Board shall be notified at its next available public meeting and provided with an opportunity to discuss the emergency, the award, and ratification thereof.
- (6) Any Public Improvement contract awarded under this exemption shall be awarded within 60 days following declaration of the emergency unless an extension is granted by the Board (ORS 279C.335(5)).
- (7) Oil or Hazardous Material Removal: The College may enter into public contracts without competitive bidding, regardless of dollar amount, when ordered to clean up oil or hazardous waste pursuant to the authority granted the Department of Environmental Quality (DEQ), under ORS 466.605 through 466.680 and such DEQ order necessitates the prompt establishment and performance of the contract in order to comply with the statutes regarding spill or release of oil or hazardous material that has created an emergency condition. In exercising its authority under this exemption, the College shall:
 - (a) (1) To the extent reasonable under the circumstances, encourage competition by attempting to make informal solicitations or to obtain informal quotes from potential suppliers of goods or services;
 - (1) Make written findings describing the circumstances requiring clean up or a copy of the DEQ order ordering such cleanup;
 - (2) Record the measures taken under subsection (a) of this section to encourage competition, the amount of the quotes or proposals obtained, if any, and the reason for selecting the contractor selected.
 - (a) The College shall not contract pursuant to this exemption in the absence of an order from the Department of Environmental Quality to clean up a site with a time limitation that would not permit hiring a contractor under the usual competitive bidding procedures.

Equipment Repair & Overhaul (Including Maintenance Agreements)

CCR.208

- (1) The College may enter into a public contract for equipment repair, maintenance agreements, or overhaul of equipment without competitive bidding, subject to the following conditions:
 - (a) Service and/or parts required are unknown, and the cost cannot be determined without extensive preliminary dismantling or testing; and/or
 - (b) Service and/or parts required are for sophisticated equipment for which specially trained personnel are required and such personnel are available from only one source;
 - (c) Maintenance agreements must be procured from the provider of the equipment and/or software being maintained in order to be valid, preserve warranties, provide the best possible service, or conform to other similar agreements being provided by the same provider for maximizing economy and/or servicing functions;
 - (d) The College shall conduct its procurement for equipment repair, maintenance agreements, or overhaul

of equipment pursuant to methods and parameters established in (2) of this rule.

(2) The following limitations shall apply:

- (a) At the discretion of the College, if it is practical to competitively procure equipment repair, maintenance agreements, or overhaul of equipment using quotations or other forms of Solicitation Documents then these competitive processes shall be utilized. If not, the file should be documented with the reasons for invoking this exemption from competitive procurement, specifically supporting the impracticality of a competitive procurement.
- (b) If the contract exceeds or is anticipated to exceed the thresholds for Small or Intermediate Procurements as these thresholds are defined in Section 300, the College shall document in its procurement file the reasons why a competitive procurement process was deemed impractical, and the College may directly enter into the contract.

Federal Contracts, Purchases under

CCR.210

When the price of goods and services has been established by a contract with the federal government pursuant to a federal contract award, the College may purchase the goods and services in accordance with the federal contract. In exercising this authority under this class special procurement, the College must:

- (1) Include in the contract file a memorandum confirming the federal official who granted permission to the College to purchase under the federal contract; and
- (2) Include documentation in the contract file showing the cost savings to be gained from anticipated purchases from the federal contract.

Comment:

In order to utilize GSA contracts, a class special procurement must be adopted by the local contract review board. For those GSA schedules available for use by local governments or any other federal contracts for goods and/or services, this rule requires a two-prong test be met prior to its use.

Findings of Fact

1. Federal contracts for goods and/or services are established by federal agencies with private vendors through competitive processes, which meet the standards of the Public Contracting Code. These processes include open competitive bidding, to which all interested vendors are invited to participate. No Oregon company is excluded from, or disadvantaged in, participation in bidding on federal contracts. Thus the class special procurement has the public benefit of supporting a competitive selection process, while providing the operational and budgetary benefits to the College by avoiding the cost and delay of replicating the solicitation process.
2. The prices or rates for goods and services under federal contracts are based upon competitive bids or proposals. This rule requires the College to document the cost savings to be gained from the anticipated purchase(s) from the federal contract. Documentation might include competitive comparison of previous bid prices obtained from other sources, including local Oregon businesses.
3. This rule requires that the College obtain the permission of both the federal agency and the federal vendor to use the federal contract.

Intellectual Property (Periodicals, Library Books, Proprietary Software Licenses, Art, and Other

Products of the Creative Process)

If the contract is for the purchase of Intellectual Property, which shall include, but not be limited to, Periodicals, Library Books, Subscription Services, Proprietary Software Licenses, Art, and Other Products of the Creative Process, the College may contract for the purchase of the product(s) without competitive procurement, regardless of dollar amount when the product(s) are protected under copyright law, and/or there is only one known supplier (e.g., manufacturer, copyright holder), available for such products.

Examples of copyrighted materials typically covered by this Special Procurement include, but are not limited to: magazines and other periodicals; textbooks; workbooks; curriculum kits; reference materials; audio tapes; video tapes; calculators such as those used for aircraft navigation; and most software and products of the visual, aural and written arts. It should be noted that if there is more than one supplier of copyrighted materials (especially software), and the product(s) are not being purchased directly from the writer, manufacturer or other original source, every attempt should be made to establish a competitive selection process in order to achieve the greatest economy.

* * * * *

Intergovernmental Cooperative Purchasing Participation

Examples of intergovernmental cooperative purchasing participation may include, but not be limited to: Oregon Cooperative Purchasing Program (ORCPP), Western States Contracting Alliance (WSCA), Association of Educational Purchasing Agencies (AEPA), Organization for Educational Technology and Curriculum (OETC), and US Communities Government Purchasing Alliance.

Pursuant to Oregon Revised Statutes 279A.205, 279A.210, 279A.215, and 279A.220, other governmental agencies, bodies, or districts may participate in any joint cooperative procurement and/or subsequent contract award resulting from any solicitation which has been accomplished in compliance with Oregon Revised Statutes, as if said agencies had generated the solicitation and made the award on their own behalf.

Comment

In general, the results of any solicitation, formal or informal, which has taken place under the requirements of Oregon Revised Statutes and has resulted in an award, and is current (i.e., not closed, terminated, in abeyance or in default), may be utilized by the College pursuant to Oregon Revised Statutes 279A.205, 279A.210, 279A.215, and 279A.220.

* * * * *

Life Cycle Costing/Best Value

- (1) In determining the lowest bid or best proposal, in the award of a contract, the College may use the concept of life cycle costing if it complies with section (2) of this rule:
- (2) (a) At the time of writing specifications for the product, the College shall identify those factors which will have cost implications over the life of the product, and which, for evaluation purposes, will be used to adjust the bid or proposal price of the product;
 - (a) The solicitation document shall set out clearly the factors and methodology to be used in life cycle cost adjustments; and
 - (b) The results of life cycle costing adjustments shall be applied to the bid or proposal price of the product(s) offered, and the bid or proposal that results in the lowest overall ownership cost or "best value" as it is determined by ORS 279.015(5), taking into account the life cycle costing adjustments, and other aspects of service and product quality, as well as pricing.

* * * * *

Perishables (Chemicals, Food, Laboratory Supplies)

Competitive procurement need not be used for the procurement of perishables under this Special Procurement provided that the perishability and commensurate quality is of greater importance than the cost to the College.

Comment

If longevity is not an issue and multiple sources exist, standard procurement practices shall be utilized.

* * * * *

Personal Property, Used (Purchase of)

CCR.220

Competitive procurement need not be used for the procurement of Used Personal Property if the College has determined that the purchase will result in cost savings and will not diminish competition or encourage favoritism.

For purchases of used personal property or equipment costing \$25,000 or more, or an amount otherwise indicated in Section 300, the College shall, where feasible, obtain three competitive quotations, unless such comparisons are highly impractical to obtain. Procurement files pertaining to Used Personal Property shall contain documentation of price comparisons and attempts to secure competitive pricing as much as is practical.

When the value of any such purchase exceeds the threshold for Intermediate Procurements as that threshold is defined herein, Section 300, Supplementary Provisions of the Community College Rules of Procurement, such purchases shall be authorized and/or delegated only by the College President, who shall notify the LCRB of such purchases at the next regularly scheduled meeting of the LCRB.

Comment

Used Personal Property is property which has been placed in use by a previous owner or user for a period of time recognized in the relevant trade or industry as qualifying the personal property or equipment as “used,” at the time of purchase.

Used Personal Property generally does not include property or equipment of which the College was the previous or current user, whether under a lease, as part of a demonstration, trial or pilot project, or similar arrangement.

* * * * *

Price Regulated Items (Including Gas, Diesel Fuel, Heating Oil, Lubricants, Asphalts, Distilled Alcohol, Postage, and Certain Utilities)

CCR.222

The College may, without competitive bidding, contract for the direct purchase of goods or services where the rate or price for the goods or services being purchased is established by federal, state, or local regulatory authority (ORS 279A.025(2)(f) and ORS 279A.025(2)(i).

Comment

If competition exists and it is practical to solicit quotations, bids, or proposals for Price Regulated Items, then these procurement methods should be utilized in an effort to obtain best value.

* * * * *

Request for Proposals

CCR.224

The College may, at its discretion, use Request for Proposal competitive procurement methods subject to the following conditions:

- (1) The procurement is advertised and a written solicitation document is issued that invites the submission of sealed, written offers to be opened publicly at a designated time and place; and
- (2) Contractual requirements are stated clearly in the solicitation document; and
- (3) Evaluation criteria to be applied in awarding the contract and the role of an evaluation committee are stated clearly in the solicitation document. Criteria used to identify the proposal that best meets the College needs may include but are not limited to cost, quality, service, compatibility, product reliability, operating

- efficiency and expansion potential, and proposer’s qualifications and experience; and
- (4) The solicitation document clearly states all complaint processes and remedies available; and
- (5) The solicitation document states the provisions for proposers to comment on any specifications that they feel limit competition.

* * * * *

Requirements Contracts and Price Agreements **CCR.226**

- (1) Requirements contracts, for the purposes of this Rule, mean price agreements, services agreements, and sales that may be established for the purposes of minimizing paper work, achieving continuity of product, securing a source of supply, reducing inventory, combining college requirements for volume discounts, standardization among agencies, and reducing lead time for ordering. The College may enter into requirements contracts whereby it is agreed to purchase supplies and/or services for an anticipated need at a predetermined price provided the contract is let by a competitive procurement process pursuant to the requirements of ORS 279ABC and these Rules.
- (2) The College may purchase the supplies and/or services from a contractor awarded a requirements contract without first undertaking additional competitive solicitation.
- (3) The term of the contract including renewals, must not exceed the maximum term stated in the original solicitation.

Resale – Items for **CCR.228**

Competitive procurement processes need not be used for the procurement of product or services being purchased strictly for resale. This Special Procurement applies to products or services that are specifically for resale as opposed to internal use or consumption.

* * * * *

Telecommunications Services **CCR.230**

- (1) This rule is intended to allow the College to secure the most competitive, cost-effective telecommunications services of the quality needed to meet all service, performance requirements while minimizing administrative and service delivery costs.
- (2) In determining the appropriate procurement method for telecommunications services, the College must determine whether competition exists. The College may consider the following factors:
 - (a) The extent to which alternative providers exist in the relevant geographic and service market. The relevant market will vary with the geographic area and from service category to service category, depending on changes in the regulatory environment and competitive marketplace. Thus, the relevant market will depend on the facts and circumstances of each case. For example, an alternative local access service or private line provider might offer services in Portland, but not in Salem or the rest of the state;
 - (b) The extent to which alternative services offered are comparable or substitutable in technology, service provided, and performance. (For example, if the College requires digital services, analog services are not comparable or substitutable, or if the College requires fiber optic technology, then copper, microwave, or satellite transmission technology may not be comparable or substitutable);
 - (c) The extent to which alternative providers can respond to the College’s interests in consistency and continuity of services throughout its service area, volume discounts, equitable service for all users, centralized management, and limiting College liability. For example, to be considered as the College's telephone long distance provider, any long distance service vendor must be able to meet, support, and interface with the College's centralized

automated billing requirements. The College must document for the record the findings on these factors or any other factors used in determining whether competition exists. In developing its findings, the College may solicit the information either through informal telephone or written contacts or through a formal request for information.

- (6) Upon determining that competition does not exist for the relevant service and geographical area, the College may proceed to secure the service on a sole source basis, as described in these Rules.

PERSONAL SERVICE CONTRACTING RULES

Personal Services Contracts

CCR.250

I. Definition - General

- (1) A contract for "Personal Services" is a public contract that calls for specialized skills, knowledge, and resources in the application of highly technical or scientific expertise, or the exercise of professional, artistic or management discretion or judgment. Qualifications and performance history, expertise, knowledge and creativity, and the ability to exercise sound professional judgment are typically the primary considerations when selecting a Personal Services Contractor, with price being secondary.
- (2) The College may waive the requirement for a competitive selection process and directly negotiate a Personal Services Contract, if the contract price is not more than the Minimum Threshold as this threshold is defined in Section 300-Supplementary Provisions. Regardless of the dollar value of the contract, the College may, at its discretion, enter into a Personal Services Contract without complying with formal or informal solicitation requirements if an Emergency, as defined in CCR.206 exists.
 - (a) Unless there are compelling reasons not to do so, competitive selection processes for Personal Services contractors should take place at intervals not greater than five years.
 - (b) The screening and selection procedures for the award of Personal Services Contracts are governed by ORS 279A.055 and are subject to the competitive procurement provisions of the Personal Services Contracting rules and procedures adopted herein. Every contract for Personal Services shall be based upon these screening and selection procedures developed by the College. Personal Services Contracts are considered "public contracts" as defined in ORS 279A.010.
- (3) The College may enter into Personal Services Contracts with an independent contractor when:
 - (a) The work to be performed requires specialized skills, knowledge and resources in the application of highly technical or scientific expertise, or the exercise of professional, artistic, or management discretion or judgment;
 - (b) The College will not control the means or manner of the contractor's performance, but must rely on the Contractor's specialized skills, knowledge and expertise to accomplish the work. Note: The College's reservation of the right to determine and modify the delivery schedule, evaluate the quality of completed performance, and accept or reject the completed performance does not mean that the College will control the means and manner of performance; and
 - (c) Selecting a Contractor primarily on the basis of qualifications, rather than price, in accordance with the provisions of the Personal Services Contracting Rules and Procedures adopted herein would most likely meet the College's needs and result in obtaining satisfactory contract performance and optimal value for the College.
- (4) Pursuant to ORS 279A.055(2), the College has the authority to designate certain service contracts or classes of service contracts as Personal Services Contracts. Personal Services Contracts may include, but are not limited to, contracts for services performed in a professional capacity such as:
 - (a) Contracts for the services of an accountant;
 - (b) Contracts for the services of an attorney;
 - (c) Contracts for the services of a physician or dentist,

- (d) Contracts for the services of an information technology consultant,
- (e) Contracts for the services of a broadcaster;
- (f) Contracts for services as an artist in the performing or fine arts including, but not limited to, any person identified as a photographer, filmmaker, painter, weaver, or sculptor;
- (g) Contracts for services that are specialized, creative and research-oriented;
- (h) Contracts for services as a consultant;
- (i) Contracts for educational services;
- (j) Contracts for investment services;
- (k) Contracts for travel services;
- (l) Contracts for banking services;
- (m) Contracts for auditing services;
- (n) Contracts for student loan and college receivables;
- (o) Contracts for real estate services (ORS 279A.025(2)(e));
- (p) Contracts for property management;
- (q) Contracts for employee benefit insurance (ORS 279A.025(2)(r));
- (r) Contracts for investments (ORS 279A.025(2)(q)(c));
- (s) Contracts for energy savings performance contracts (ORS 279C.335(1)(f));
- (t) Contracts for agents of record (examples where agents of record may be used are advertising, general insurance, sales of surplus property, workers compensation insurance, etcetera);
- (u) Contracts for speakers, lecturers, and performers; and
- (v) Contracts for human custodial care services;
- (w) Contracts for food service management; and
- (x) Contracts for telecourse providers.

(5) Personal Services Contracts do not include:

- (a) Contracts, even though in a professional capacity, if primarily for equipment, supplies or materials, e.g., a contract to supply all hardware and standard software is not a Personal Services Contract, but a contract with a technology consultant to design or develop a new computer system is a Personal Services Contract;
- (b) Contracts with a temporary service or personnel agency to supply labor, which is of a type that can generally be done by any skilled worker (e.g., janitorial, security guard, crop spraying, laundry, and landscape maintenance service contracts)
- (c) Contracts for services of a trade-related activity, even though a specific license is required to engage in the activity. Examples are repair and/or maintenance of all types of equipment or structures.

II. Screening and Selection Procedures and Assistance

These rules set forth procedures for the College to follow when entering into Personal Services Contracts.

- (1) The policy of the College is to select Contractors based on demonstrated qualifications and competence to perform the required services, encourage competition, discourage favoritism and obtain services at a fair and reasonable price. The purpose of this rule is to specify the College's policies and procedures for screening and selection of Contractors to perform Personal Services.
- (2) The College shall comply with the procedures set out in these rules for screening and selecting Contractors to perform Personal Services Contracts.
- (3) The College shall provide Evidence of Competition for all Public Contracts where competition exists or justify entering into contracts by direct negotiation if an exemption from the screening and selection process is utilized. While qualifications are the primary criteria, whenever the College determines that the services offered by two or more individuals or firms are equally able to meet the College's needs and are of equal value, the College shall award the contract to the individual or firm offering the service at the lowest price.
- (4) The College may procure Personal Services from Contractors who are under contract with another

governmental entity pursuant to a Cooperative Agreement as permitted and subject to ORS 279A.200 to 279A.225, if such action is expressly permitted under the original contract and if the administering agency's solicitation and award process for the original contract is an open and impartial competitive process and uses source selection methods substantially equivalent to those specified in ORS 279B.055, 279B.060 or uses a competitive bidding process substantially equivalent to the competitive bidding process in ORS chapter 279C.

III. Solicitation Requirements

A. General

- (1) All formal solicitations must satisfy the requirements of this rule. Request for Proposals and Request for Qualifications must be in writing and must be advertised in accordance with the following procedures:
 - (a) All advertisements for a formal solicitation shall be placed in at least one newspaper of general circulation and in as many additional issues and publications as may be necessary or desirable to achieve adequate competition. At the option of the College, the College may publish its public notices electronically instead of, or in addition to, a newspaper of general circulation. The advertisement(s) for a formal solicitation shall be first published and appear at least once, no fewer than fourteen (14) calendar days before close of the solicitation, unless the governing body of the College, its President, or another officer authorized by the College declares in writing that a shorter period is deemed necessary in the public interest for a particular procurement. Conversely, the College shall broaden and extend public notice if deemed necessary to serve the public's interest for a particular procurement; and
 - (b) All advertisement(s) shall describe, at a minimum, a brief summary of the proposed contract, the services sought, where copies of the solicitation may be obtained, and the deadline for submitting a proposal.
- (2) The Solicitation Document must provide that the College may, at any time during the solicitation process, reject any or all proposals or cancel the solicitation without liability if it is in the public interest to do so.
- (3) Unless compensation is expressly provided for in the Solicitation Document, the Request for Proposals or Request for Qualifications must provide that the College is not responsible for any costs of any Offeror incurred while submitting Offers and that all Offerors who respond to solicitations do so solely at their own expense
- (4) The Solicitation Document must:
 - (a) Notify proposers of potential Solicitation Document addenda. Failure to provide such notice in any solicitation may prevent addenda from being incorporated into any resulting contract, and include protest procedures for all formal solicitation and selection.

B. Formal Selection Procedures

The College shall use a formal selection procedure whenever the cost of the services is estimated or anticipated to be equal to or more than the Intermediate Threshold for Personal Services contracts as this threshold is defined in Section 300--Supplementary Provisions. Under these formal procedures, Requests for Proposals (RFP) or Requests for Qualifications must be advertised in at least one newspaper of general circulation or through electronic means as indicated in Section 200, Rule 202, and in as many other issues or electronic procurement systems, and publications as may be necessary or desirable to achieve adequate competition.

- (1) Request for Qualifications. A Request for Qualifications may be used to determine whether competition exists to perform the needed services or to establish a list of qualified Contractors prior to issuing an RFP (Note: It is not mandatory that the College issue a Request for Qualifications; it may elect to forego using a Request For Qualifications before issuing an RFP.)
 - (a) At a minimum, the Request for Qualifications shall describe the particular specialty desired,

the qualifications the Contractor(s) must have in order to be considered, and the evaluation factors and their relative importance. The Request for Qualifications may require information including, but not limited to: the Contractor's particular capability to perform the required services; the number of experienced staff available to perform the required services, including specific qualifications and experience of personnel; a list of similar services the Contractor has completed, with references concerning past performance; and any other information necessary to evaluate Contractor qualifications.

- (b) A qualifications pre-submission meeting (voluntary or mandatory) may be held for all interested Contractors to discuss the proposed services. If the meeting is mandatory, the Request for Qualifications shall include the date, time and place of the meeting(s).
 - (c) Unless the Request for Qualifications establishes that competition does not exist or unless the solicitation process is canceled or all qualification statements rejected, all respondents (who met the published qualifications) shall receive a notice (or other materials as appropriate) of any required services and have an opportunity to submit an Offer in response to the College's subsequent RFP.
- (2) Request for Proposals. The RFP is used as a formal competitive solicitation that describes specific services to be performed within a defined period of time. The solicitation sets forth criteria and methods for screening, selecting and ranking the best proposal(s). The RFP may result in contracts with more than one provider.
- (a) The RFP must either describe the situation and background for which Offers are being requested and state the outcome(s) desired, or propose a Statement of Work. The RFP must describe any conditions affecting the delivery of the services and the time period in which the services are to be completed. The RFP must, at a minimum, address the following information:
 - (i) Minimum standards and qualifications required to be met by the Offeror(s) to be eligible to provide the services;
 - (ii) The evaluation process and criteria to be used to select the Contractor(s), including the weight or points applicable to each criterion. Information must include the manner in which the Offeror's cost and pricing proposal will be evaluated;
 - (iii) A requirement to provide a list of similar services completed by the proposer(s) with references concerning past performance;
 - (iv) The closing date and time of the solicitation and the delivery location(s) for proposals;
 - (v) Reservation of the right to seek clarifications of each proposal, and the right to negotiate the Statement of Work within the scope of work described in the RFP;
 - (vi) Reservation of the right to reject any or all Proposals, if such rejection would be in the public interest;
 - (vii) Reservation of the right to cancel the solicitation, if such cancellation would be in the public interest;
 - (viii) Contractual provisions that will be contained in the resulting contract;
 - (ix) The possibility of interviews; and
 - (x) Any other information to be used to evaluate, rank and select the best proposer(s). This should include, but is not limited to: anticipated contract award date, and at the College's discretion, funding information and budget requirements.
 - (b) A pre-proposal meeting (voluntary or mandatory) may be held for all prospective Contractors to discuss the proposed services, solicitation provisions and contract requirements. The RFP shall include the date, time and place of the meeting(s).
 - (c) An evaluation committee shall evaluate Proposals. The College's Purchasing Department shall provide the evaluation committee with guidelines for completing evaluations consistent with the process described in the RFP. The evaluation committee may consist of College employees and, if desired, members of the community with experience in related services. Evaluators shall be selected on the basis of their ability to provide an objective, impartial

evaluation of the proposals. If there is a conflict of interest, the evaluator shall declare this in writing and shall be excluded from participating in the evaluation.

- (d) The proposal evaluation committee shall review, score and rank all responsive proposals according to the evaluation criteria in the RFP, which may include, but are not limited to, the following:
 - (i) Availability and capability to perform the work;
 - (ii) Experience of key staff on comparable projects, or in performing comparable services;
 - (iii) Demonstrated ability to successfully complete similar projects or perform similar services on time and within budget;
 - (iv) References from past clients, public and private;
 - (v) Performance history in meeting deadlines, submitting accurate estimates, producing quality work, and meeting financial obligations;
 - (vi) Status and quality of any required licensing or certification;
 - (vii) Knowledge and understanding of the required services as shown through the proposed approach to staffing and scheduling needs;
 - (viii) Fees or costs;
 - (ix) Results from oral interviews, if conducted;
 - (x) Availability of any specific required resources or equipment;
 - (xi) Geographic proximity to the project or the area where the services will be performed;
 - (xii) Identity of proposed subcontractors and their qualifications; and
 - (xiii) Any other criteria deemed relevant to the provision of services.
- (e) Final ranking will be based on the evaluation criteria consistent with the process described in the RFP. Price will be considered, but will not necessarily govern selection of the Contractor(s).
- (f) Contracts entered into under the formal selection procedure may be amended, provided the original contract allows for the particular amendment and the services to be provided under the amendment are included within, or directly related to, the scope of the project or the scope of the services described in the solicitation document.

C. Informal Selection Procedures

The College may use an informal selection process to obtain services if the estimated fee or contract price is less than the Minimum Threshold for Personal Services Contracts as this threshold is defined in Section 300-Supplementary Provisions.

- (1) The informal selection process shall solicit Offers from at least three qualified contractors offering the required services. Prospective contractors may be drawn from the ORPIN System and/or from the certified list of the Advocate for Minority, Women and Emerging Small Business or its list of Contractors. The College may place the solicitation on the ORPIN System and/or use the system-generated potential Offer list to meet the three (3) responses/proposals requirement for informal solicitations.
- (2) The informal selection process shall be competitive. The selection and ranking may be based on criteria including, but not limited to, each Offeror's:
 - (a) Particular capability to perform the services required;
 - (b) Experienced staff available to perform the services required, including each Offeror's recent, current, and projected workloads;
 - (c) Performance history;
 - (d) Approach and philosophy used in providing services;
 - (e) Fees or costs;
 - (f) Geographic proximity to the project or the area where the services are to be performed; and
 - (g) Work volume previously awarded by the College, with the object of effecting an equitable distribution of contracts among qualified Contractors, provided such distribution does not

violate the policy of selecting the most highly-qualified Contractor to perform the services at a fair and reasonable price.

- (3) All proposals received shall be reviewed and documented and the most qualified Contractor(s) selected.
- (4) If the scope of the services is revised to the extent that the estimated cost of the services is considered to be equal to or more than the Minimum Threshold as this threshold is defined in Section 300-Supplementary Provisions, and the services are still required, the College shall either (a) terminate the contract and issue a new solicitation using the formal selection procedures or procedures allowed by subsequent rules set forth in this Section, unless waived under the provisions of Section CCR.250(I)(2), or (b) seek approval by the College's Local Contract Review Board for contract amendment.

D. Selection by Negotiation

- (1) The College may procure Personal Services with Contractors directly through negotiation if the contract price is less than the Minimum Threshold as this threshold is defined in Section 300-Supplementary Provisions.
- (2) If the scope of the services is revised to the extent that the estimated cost of the services is equal to or more than the Minimum Threshold as this threshold is defined in Section 300-Supplementary Provisions, the College shall solicit for a new Contractor(s) using applicable selection procedures under these rules.

PUBLIC IMPROVEMENT CONTRACTS EXCEPTIONS AND EXEMPTIONS

Alternative Contracting Methods

CCR.280

The College may, at its discretion, exempt public improvement contracts from competitive bidding requirements utilizing Alternative Contracting Methods (ORS 279C.335(3)(a)). These methods shall take into account market realities and modern practices that are consistent with the public policy of encouraging competition. Examples of Alternative Contracting Methods are Request for Proposals for the selection of construction manager/general contractor firms (CM/GC), and Design/Build firms.

The College shall prepare written findings that support the use of this exemption from competitive bidding and obtain approval from its Local Contract Review Board. A public hearing shall be held before final adoption (ORS 279C.335(4)(a)) of the exemption. The findings must show compliance with ORS 279C.330, and shall include, but not be limited to, information regarding:

- (a) Operational, budget and financial data;
- (b) Public benefits;
- (c) Value engineering;
- (d) Specialized expertise required;
- (e) Public safety;
- (d) Market conditions;
- (e) Technical complexity; and
- (f) Funding sources but shall not be based solely on funding sources, such as a particular bond fund, or by the method of procurement.

Donated Public Improvements

CCR.281

The College may authorize a Person to construct a public improvement without competitive bidding or other competitive process regardless of dollar amount, if:

- (1) The Person has agreed to donate all of the labor, materials and services necessary to construct the public improvement and perform the work; and
- (2) The Person enters into a license or agreement with the College whereby the Person agrees to comply with the public contract requirements applicable to the particular project, requirements of the Public Contracting Code, and any requirements that the College deems necessary or beneficial to protect the College.

Limited Negotiations with Bidder

CCR.283

I. Definitions

For purposes of this rule, the terms below shall be defined, as follows:

“College’s Cost Estimate” shall mean the fixed limit of construction cost that has been agreed upon by the College and the College’s consultant.

“Value Engineering and Other Options” refers to a process agreed upon by the College, which involves the lowest responsive, responsible bidder and may include other consultants to identify deletions or adjustments to the project to reduce the cost of such work.

“Significantly Changed” with reference to the scope of the project, shall mean deletion or adjustment of components of the project or elements of the work, which in the aggregate are estimated to cost in excess of twenty-five percent of the College’s Cost Estimate as originally designed.

II. Limited Negotiations and College’s Cost Estimate

- (7) If a project is competitively bid and all the responsive bids from responsible bidders exceed the College’s Cost Estimate, the College may, prior to award, negotiate with the Lowest Responsible Bidder utilizing Value Engineering and Other Options to bring the contract price within the College’s Cost Estimate.
- (2) The College’s negotiation with the Lowest Responsible Bidder shall not result in award of the contract to such bidder if the scope of the project is Significantly Changed from that specified in the Invitation to Bid at the time of bidding.
- (8) If the College elects to use the negotiation process under this rule, the College will not produce for public inspection prior to award or termination of the negotiation process, any records of the Lowest Responsible Bidder. After award of the contract or termination of the negotiation process, the College will make available for public inspection such records as are subject to inspection under any other provision of law.

III. Negotiation and Award Process

- (1) If the Lowest Responsible Bidder's Bid exceeds the College's Cost Estimate, the College may, but shall not be required to, negotiate with the Lowest Responsible Bidder to bring the cost of the project within the College's Cost Estimate.
- (2) If the College elects to negotiate with the Lowest Responsible Bidder, the College shall give written notice to the Lowest Responsible Bidder of its intent, within ten (10) days of bid Opening. The notice shall include disclosure to the Lowest Responsible Bidder of the College's Cost Estimate.
- (3) During any such negotiations, the Lowest Responsible Bidder's bid shall remain firm for the period prescribed in the Bid. At all times until such expiration of the Bid, and notwithstanding the occurrence of negotiations under this rule, the College shall have the right to accept the original Bid.
- (4) Upon and within five (5) days of receipt of the College's notice of intent to negotiate, the Lowest Responsible Bidder and the College's representative shall meet and present to each other, in writing, any proposals either may have for Value Engineering and Other Options to bring the project within the College's Cost Estimate.
- (5) The College and the Lowest Responsible Bidder shall negotiate in good faith regarding value engineering and other options, exerting their best efforts to bring the cost of the project within the College's Cost Estimate.
- (6) If the College and the Lowest Responsible Bidder are able to reach agreement through value engineering and other options to identify measures which bring the project within the college's Cost Estimate, but do not Significantly Change the scope of the project, such value engineering and other options shall be reduced to writing and signed by the Lowest Responsible Bidder as an amendment to its bid and will be incorporated into the Contract at the time of award.
- (7) Upon award, the terms and conditions of the amendment to the Bid shall be made public.
- (8) Any protest of this negotiation process shall be subject to the Protest Process specified in the Invitation to Bid.

SECTION 300 SUPPLEMENTARY PROVISIONS – CONTRACTING RULES

These Community College Rules of Procurement were drafted by participating statewide community college representatives with the intent that Sections 100 and 200 be adopted in their entirety and remain unchanged by their respective institutions unless modified by participating committee members at a later date and subsequently and unanimously ratified by their Local Contract Review Boards. Section 300 has been specifically set aside to address the unique philosophies, cultures, and/or concerns of the various community colleges, voting districts, and contract review boards. In the event of conflict between rules or sections within these Community College Rules of Procurement, the rules in Section 300 shall take precedence over the Appendices in Section 300, and the rules in Sections 100 and/or 200 except as otherwise expressly provided.

Consultant Selection: Architectural, Engineering, Land Surveying and Related Services Contracts

CCR.301

This rule amends (i.e., additions are indicated by *italics* and deletions are indicated by a line drawn through the word(s) that has been stricken.), Appendix B of these Community College Rules of Procurement (i.e., Model Public Contract Rules adopted on December 27, 2005, by the State of Oregon, Department of Justice, General Counsel Division, effective January 1, 2006, Division 48), as follows:

OAR 137-048-0210(1) shall be replaced with: “~~The College Contracting Agencies~~ may use the informal selection procedure described in this rule to obtain a contract if the Estimated Fee is expected not to *meet or exceed \$75,000* ~~\$150,000~~.”

OAR 137-048-0210(5) shall be replaced with: “~~The College Contracting Agency~~ shall terminate the informal selection procedure and proceed with the formal selection procedure under OAR ~~137-048-220~~ *137-048-0220* if the scope of the anticipated Contract is revised during negotiations so that the Estimated Fee will *meet or exceed \$75,000* ~~\$150,000~~. Notwithstanding the foregoing, the ~~College Contracting Agency~~ may continue Contract negotiations with the Proposer selected under the informal selection procedure if ~~the College Contracting Agency~~ makes written determinations that contracting with that Proposer will:

- (a) Promote efficient use of ~~the College’s Contracting Agency’s~~ resources and result in substantial cost savings to ~~the College Contracting Agency~~; and
- (b) Protect the integrity of the Public Contracting process and the competitive nature of the procurement by not encouraging favoritism or substantially diminishing competition in the award of the Contract.

Contract Amendments & Reinstatements

CCR.302

- A. The College may award an amendment(s) to a Public Contract for additional work or product which is reasonably related to the scope of work under the original contract, including change orders, extra work, field orders, or other changes in the original specifications that increases the original Contract Price subject to the following conditions:
- (1) Contract amendments must be made in writing;
 - (2) Amendments to contracts must fall within the scope of the original solicitation. Amendments shall not be used to circumvent rules establishing approvals at certain monetary thresholds;
 - (3) The original contract was let by competitive bidding or alternate contracting method or is a Special Procurement that has been exempted from competitive processes;
 - (4) Such amendment(s) shall not exceed a total of thirty-three percent (33%) of the original Contract Price for goods and services or twenty-five percent (25%) over the original Contract Price if the Contract is for public improvements, public works, or general trade services and the amount of the amended Contract is defined as a Small or Intermediate Procurement as these thresholds are defined in Section 300, “Public Contracts Under Certain Dollar Amounts,” Supplementary Provisions of the Community College Rules of Procurement;

- (5) Such amendment(s) shall not exceed a total of fifty percent (50%) of the original Contract Price, if the original Contract Price exceeds the threshold for Intermediate Procurements as this threshold is defined in Section 300, "Public Contracts Under Certain Dollar Amounts," Supplementary Provisions of the Community College Rules of Procurement, and the Contract is for public improvements, public works, or general trade services;
- (6) The Local Contract Review Board approves the amendment if the contract is for a Public Contract and the amended value of the contract is equal to or in excess of \$100,000.

B. The "Reinstatement of Expired Contracts" means the action of reinstatement of an expired Contract that was previously properly executed containing all the required approval signatures and following all required procurement processes. The College may approve reinstatement of an expired Contract if the following conditions are met:

- (1) The College determines concisely, in writing, that the failure to extend or renew the Contract in a timely manner was due to unforeseen or unavoidable conditions;
- (2) The written reinstatement justification is presented to Purchasing for approval within ninety (90) days after expiration of the original Contract; and
- (3) The reinstatement is exclusively for the purpose of permitting completion of the work or services for no additional compensation; or
 - (a) When the services are of a continuing or repetitive nature, which are compensated at an hourly, daily or similar periodic rate, the reinstatement either:
 - (i) Does not increase the rate of compensation; or
 - (ii) Does not increase the rate of compensation so as to exceed the rate of the increase determined by comparing the Portland, Oregon Metropolitan Area Consumer Price Index (all items), published immediately prior to the date the original contract was established with the same Index published immediately prior to the date of the reinstatement and extension.
- (4) When a Contract is reinstated pursuant to this Rule, the College may compensate the Contractor, at the rate of compensation established in the original Contract, for work performed in the interim between the expiration of the original Contract and the execution and approval(s) of the extension or amendment.
- (5) This rule authorizes only one reinstatement of a Contract.
- (6) No reinstatement of a Contract must modify the original contract except with respect to the time for performance.
- (7) If the reinstatement of a Contract pursuant to this rule raises the aggregate amount of compensation to a level that requires approval by the Local Contract Review Board, the College must obtain such approval before the extension becomes binding and before any services may be performed under the reinstated contract.
- (8) Once a contract is reinstated, it is in full force and effect, as if it had not expired.

Cumulative Awards of Small Contracts (i.e., Anti-Fragmenting Rule)

CCR.304

When the College awards a series of small contracts with values less than \$50,000, intends to award a series of such contracts, or is likely to award a series of such contracts within one fiscal year, the sum of which will, or is likely to, meet or exceed \$50,000, and the Work of which is similar, identical, or within the same operational domain, the College shall submit findings to its Local Contract Review Board to the effect that:

- (1) The contracts are not intentionally fractionalized to avoid sealed, competitive public procurement; and,
- (2) Competition is not being diminished by the awarding of such contracts and the consequent avoidance of public advertising of the requirement; and,
- (3) Other requirements such as those of the Bureau of Labor and Industries, (prevailing wage rates), bonding, insurance and OMWESB (Office of Minority, Women and Emerging Small Business, reporting

requirements), will not be avoided by the award of such contracts;

or, the College shall formulate and issue a formal solicitation for the totality of such annual requirements, and shall, as a result of such solicitation, establish a requirements contract naming one or more qualified providers, for the provision of the required goods or services.

Energy Management Controls Systems

CCR.308

Competitive procurement need not be used for Energy Management Controls Systems provided the hardware or software is required to match or be specifically compatible with existing equipment (*see Brand Names or Marks, "or Equal," Single Seller and Sole Source*), or that the items are available from only one source and the College has determined that competition does not exist.

In determining the appropriate procurement method for Energy Management Controls Systems or whether competition exists, the College may consider the following factors: the extent to which alternative services offered are comparable or substitutable in technology; service provided; performance; the extent to which latest upgrades and options are offered by the manufacturer; upward and downward compatibility; and the extent to which alternative providers can respond to the College's interests in consistency and continuity of services throughout its service area, volume discounts, equitable service for all users, centralized management, and limiting College liability.

* * * * *

Exception (Including Sole Source) – Purchases of Goods or Services through

CCR.310

Competitive procurement processes need not be used for the procurement of goods or services when waived, in writing, by the college's chief fiscal officer or designee with such approved waiver(s) being placed on file in the Purchasing office or other designated official location; notification shall subsequently be given to the college's Local Contract Review Board. The college is entitled to negotiate with any sole source Contractor to obtain a favorable price, terms, and/or conditions. This exception is to be used infrequently and only when deemed by the chief fiscal officer or designee to be in the best interest of the College.

Personal Services Contracts (CCR.250 Amended)

CCR.312

This rule replaces and amends Personal Services Contracts Rule CCR.250(I.) (2) to read:

- (2) The College may waive the requirement for a competitive selection process and directly negotiate a Personal Services Contract, if the contract price is not more than the Minimum Threshold as this threshold is defined in Section 300-Supplementary Provisions, Rule CCR.312. "Minimum Threshold" means \$25,000; "Intermediate Threshold" means \$50,000. Regardless of the dollar value of the contract, the College may, at its discretion, enter into a Personal Services Contract without complying with formal or informal solicitation requirements if an Emergency, as defined in CCR.206 exists.
 - (a) Unless there are compelling reasons not to do so, competitive selection processes for Personal Services contractors should take place at intervals not greater than five years.
 - (1) Informal Selection Procedures may be used for contracts less than the Minimum Threshold (i.e., \$25,000), but are not required to be used for contracts less than the Minimum Threshold.
 - (2) Informal Selection Procedures shall be used for contracts estimated or anticipated to be equal to or more than \$25,000, but which are not estimated or anticipated to be more than or equal to the Intermediate Threshold (i.e., \$50,000).
 - (3) Formal Selection Procedures shall be used for contracts estimated or anticipated to be equal to or

more than the Intermediate Threshold (i.e., \$50,000), but may be used for contracts of any estimated dollar value if it is deemed to be in the college's best interest.

- (b) The screening and selection procedures for the award of Personal Services Contracts are governed by ORS 279A.055 and are subject to the competitive procurement provisions of the Personal Services Contracting rules and procedures adopted herein. Every contract for Personal Services shall be based upon these screening and selection procedures developed by the College. Personal Services Contracts are considered "public contracts" as defined in ORS 279A.010.

This rule replaces and amends Personal Services Contracts Rule CCR.250(I.) to add:

- (9) If the procurement is grant-funded, "Minimum Threshold" means the amount as identified by the grant-funding agency, if the grant-funding agency's threshold requirements are more restrictive than the College's. The College will follow the provisions of Personal Services contracting rules of the grant-funding agency and/or those of the College, or a combination thereof, as identified by the grantor.

This rule replaces and amends Personal Services Contracts Rule CCR.250(III.)(B)(2)(c) to read:

- (c) An evaluation committee shall evaluate Proposals. The College's Purchasing Department shall provide the evaluation committee with guidelines for completing evaluations consistent with the process described in the RFP. The evaluation committee may consist of one or more College employees and, if desired, members of the community with experience in related services. Evaluators shall be selected on the basis of their ability to provide an objective, impartial evaluation of the proposals. If there is a conflict of interest, the evaluator shall declare this in writing and shall be excluded from participating in the evaluation.

Public Contracts Under Certain Dollar Amounts

CCR.314

- (1) The College may, at its discretion, enter into public contracts not to exceed \$50,000 for the purchase of goods, materials, supplies, and services, and not to exceed \$75,000 for contracts for architectural, engineering, land surveying, and related services, and public improvements or general trade services, without issuing a formal competitive Solicitation Document, if the College has determined that the awarding of the contract without issuing a formal competitive Solicitation Document will result in cost savings and the following conditions are met:
 - (a) The contract is for a single project, and is not a component of or related to any other project;
 - (b) When the amount of the contract does not exceed \$5,000, defined herein as a "Small Procurement," the College shall, where feasible, obtain competitive quotes, unless the contract is for architectural, engineering, land surveying, and related services procedures in which case a Direct Appointment (see Appendix B, 137-048-0200) may be made for contracts with Estimated Fees less than \$25,000;
 - (c) When the amount of the contract is more than \$5,000, but less than \$50,000, defined herein as an "Intermediate Procurement," and is not for architectural, engineering, land surveying services, or related services, and when the amount of the contract for architectural, engineering, land surveying services, or related services, is more than \$25,000, but less than \$75,000, the College shall obtain a minimum of three informally solicited competitive quotes. One of the three quotes may be obtained from a Minority/Women/Emerging Small Business firm. The College shall keep a written record of the source and amount of the quotes received. If three quotes are not available, a lesser number will suffice provided that a written record is made of the effort to obtain the quotes;
 - (d) The College will abide by ORS 279A.025(4), regarding Qualified Nonprofit Agencies, unless the required goods, materials, supplies or services are unavailable from a Qualified Nonprofit Agency as provided in ORS 279.835 to 279.855;
 - (e) The College shall encourage Minority, Women-owned and Emerging Small Businesses to participate in

its purchasing processes, where applicable, by notifying the Advocate for Minority, Women and Emerging Small Business as required by ORS 200.035; and

The goods or services, or class of goods or services, are available from only one source and the determination of a sole source is based upon written findings in accordance with the provisions set forth in ORS 279B.075.

- (2) The College may, at its discretion, enter into public contracts for trade-related projects, i.e., construction, maintenance, repair, or similar labor and materials contracts without competitive bidding if the College has determined that the awarding of the contract without competitive bidding will result in cost savings and the following conditions are met:
- (a) The contract is for a single project, and is not a component of or related to any other project;
 - (b) When the amount of the contract does not exceed \$5,000, the College should, where feasible, obtain competitive quotes (ORS 279B.065);
 - (c) When the amount of the contract is more than \$5,000, but less than \$50,000 the College shall obtain a minimum of three competitive quotes. The College shall keep a written record of the source and amount of the quotes received. If three quotes are not available, a lesser number will suffice provided that a written record is made of the effort to obtain the quotes; and
 - (d) When the contract is for a “public improvement” as defined in ORS 279A.010(1)(aa) and/or for “public works” as defined in ORS 279C.800(5), and the contract price exceeds \$25,000, the College and the contractor shall comply with:
 - (i) The prevailing wage provisions of ORS 279C.800 to 279C.870, when applicable;
 - (ii) The contractor registration requirements of ORS 701; and
 - (iii) Any other law applicable to such a contract.

If more than one supplier may be available and the total purchase is estimated to exceed \$50,000, the College shall select a contractor through a formal competitive solicitation process;

- (4) Pursuant to ORS 279C.105, when the contract is for architectural, engineering, land surveying, and related services, and the Estimated Fee is \$75,000 or greater, the College shall screen and select a contractor through a formal competitive solicitation process as these procedures are defined in Appendix B, 137-048-0220, of these Community College Rules of Procurement.
- (5) Renegotiated Contracts for Supplies and Services
- The College may renegotiate the terms and conditions, including the Contract Price, of a Contract without additional competition and amend a Contract if it is in the best interest of the College subject to the following conditions:
- (a) The College must determine that, with all things considered, the renegotiated Contract is at least as favorable to the College as the original Contract; and
 - (b) The renegotiated Contract will not have a total term greater than allowed in the original Solicitation Document, Contract or approval of a Special Procurement after combining the initial and extended terms. For example, a one-year Contract, renewable each year for up to four additional years, may be renegotiated as a two to five-year Contract, but not beyond a total of five years. Also, if Contracts with a single Contractor are restated as a single contract, the term of the single Contract may not have a total term greater than any one of the prior Contracts.
 - (c) If a Contractor offers a lower price in exchange for a change in term or condition that was expressly rejected in the original solicitation, the amended Contract may be structured with this changed term as an optional, but not as a mandatory Contract term.
 - (d) If the Contract is the result of a Cooperative Procurement, the amended Contract must be within the Scope of the Original Contract and may not materially change the terms, conditions, and prices of the Original Contract.
- (6) Contracts awarded under CCR.314.1.(b) shall be subject to preference, first for college service units, and second for in district vendors. The College is committed to the procurement of high quality services and products that represent a good value to the College. The College will support its own service units and the vendors within the local two-county district to the extent possible. It is acknowledged that there will be some situations where service units will not meet the needs of the college departments and purchases will be

made off campus.

(a) In order to maintain quality and value of service and product, and for the convenience and consistency of same, college departments are to first attempt to procure such services or products from the college units assigned to provide them whenever feasible. Departments purchasing off campus should consider all costs involved in the purchase.

(b) In order to support local businesses within the district, departments are encouraged to procure services or products from local vendors when a college service unit cannot meet the request. This should not be done if the cost is significantly greater than from vendors outside the district.

- (7) Contracts awarded under CCR.314.1.c and 314.2.c shall be competitive and contracts shall be presumptively awarded on the basis of lowest offered cost. If two or more offers are submitted with equal costs, the contract shall be awarded by the drawing of lots with such drawing supervised by the College's Director of Fiscal and Auxiliary Services.
- (8) The College reserves the right to exercise its sound discretion in awarding of all contracts under section 314.7, and may award a contract to an offeror who has not submitted the lowest cost offer. Before the College awards a contract to an offeror who has not submitted the lowest cost offer, the Director of Fiscal and Auxiliary Services shall be required to issue a written finding that the accepted offer represents higher value for the College. (e.g., goods or supplies have a higher guarantee of quality, goods or supplies can be furnished in a more timely manner, poor prior performance of the low cost offeror, etc.)
- (9) If the procurement is grant-funded, "Minimum Threshold" means the amount as identified by the grant-funding agency, if the grant funding agency's threshold requirements are more restrictive than the College's. The College will follow the provisions of the Public Contracting rules of the grant-funding agency and/or those of the College, or a combination thereof, whichever are more restrictive.
