1. The graduation rate counts students as completers if they graduated from any OUS institution, whether or not it was the campus at which they initially entered the OUS system.

Note: Community college cohorts include students who entered OUS in fall, winter, or spring term. The cohorts for 1998-99, 1999-00, and 2000-01, which had included only fall entrants, were revised in November 2007 to align them with this definition.
